**September 2020**

**Missionary Michael Titus**

**Disciple Making**

The ministry of disciple making with leaders across the country is doing well. Just recently we had 15 movement builders' multipliers for one week. I was sharing about how small groups can help the church in discipline. The small group issue was like an answer to many questions that came up in our time. They were very excited when I was sharing about the survey and what we came up with. This time of Coronavirus revealed a lot of weaknesses from within the church. It seems like when Jesus said, "I will build my church"; there were some questions among membership how this will continue. Small group training, which bases on life and the ministry of Jesus; will help the church to discipline each other like Jesus and will help saints to be equipped easily and do the work of the ministry. At this time marriage issue came up in very strong way. They asked about how they can get together as disciple makers with their wives and attend marriage training and counseling. We need financial assistance to provide leadership training in theological courses for those which lack necessary funds.

**Church**

The church is growing. They are running with a vision called "Be One and Make One". A lot is happening, every Sunday new people are coming to be saved. We have 80 members now and

we are investing more in small groups where people can be disciplined and cared for. Almost everyone is a part of the work with great excitement. Pray for us as we see there is a need for a church building which will be able to hold at least 400

people in the upcoming year. Our existing plot doesn't have enough space. There is a piece of land bordered with a church plot they sell for 3000\$ which is 20 by 20 feet which will be very helpful in implementing our 2020/2021 vision. We are praying that the owner will not be able to sell to another one until we have the funds to purchase.

## School

School is growing as the need of the community grows. We thank God for the capacity of the kids we can help get education and at the same time sharing God's big story. We thank God for the transformation we are experiencing. We are so encouraged that our fourth graders have been doing exams with other fourth graders of other schools in our town. Our kids have been leading the whole community this month by getting high marks and all our fourth graders are from a Muslim community but now they love Jesus. I am so proud of them.

These events are very encouraging for us as we aim to transform the community using the church and the school as tools to bring the light of Jesus in every aspect of human life. For now, we have the challenge to raise funds to purchase another bus. Please pray for us and if there is an opportunity of helping on this need please help us. We are trusting God for 20,000\$ to purchase a new bus.

Thank you, Hands on Missions family, for your prayerful and financial support.  
In Christ,

Michael
